

Transformational Art Therapy Center

Membership Application

Spirit escalates through creativity. This truth finds its fullest expression in Arts Mentoring which is our primary mission. We are focused on drawing out the talents of youth that lie unnoticed, unkindled, and remain obscured in the recesses of their consciousness. The opportunity for creative expression through art, dance/movement or music transforms the challenges of human misfortune to manifest the authentic beauty of each person. Self-discovery leads you to create your life as you envision it. Arts Mentoring is the privilege of participating in the miracle of a youth becoming conscious and empowered.
